Investments in the Portfolio are not deposits or obligations of, or guaranteed or endorsed by, any bank and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency. You could lose money if you sell when the Portfolio's share price is lower than when you invested.

Past performance is no guarantee of future performance. The general market views expressed in this report are opinions based on market and other conditions through the end of the reporting period and are subject to change without notice. These views are not intended to predict the future performance of the Portfolio or the securities markets. References to specific securities and their issuers are for illustrative purposes only and are not intended to be, and should not be interpreted as, recommendations to purchase or sell such securities. Such views are not meant as investment advice and may not be relied on as an indication of trading intent on behalf of the Portfolio.

This Portfolio is intended to be a funding vehicle for variable annuity contracts and variable life insurance policies (collectively "Policies") offered by the separate accounts of various insurance companies. Portfolio shares may also be offered to qualified pension and retirement plans and accounts permitting accumulation of assets on a tax-deferred basis ("Eligible Plans"). Individuals may not purchase shares directly from the Portfolio.

Prospective investors should refer to the Portfolio's prospectus for a discussion of the Portfolio's investment objective, strategies and risks. Call J.P. Morgan Funds Service Center at 1-800-480-4111 for a prospectus containing more complete information about the Portfolio, including management fees and other expenses. Please read it carefully before investing.

LETTER TO SHAREHOLDERS

February 4, 2021 (Unaudited)

Dear Shareholders,

The immense efforts of central banks, government and researchers in the public and private sectors appear to have shepherded the world through the most difficult days of a profound crisis caused by the pandemic. While the economic and health care challenges are not behind us, the uncertainty and turbulence of 2020 has abated.

“We believe the clear lesson is that investors who remained fully invested over the past year, in the face of uncertainty over the direction of the pandemic and the unprecedented responses to it, were likely rewarded for their resolve.” – Andrea L. Lisher

The development of multiple vaccines against Covid-19 toward the end of 2020 provided hope that the pandemic would be halted and that economic and social activity could begin to resume in the year ahead. That optimism spread to global financial markets. While leading equity indexes fell by 20% or more in the first quarter of 2020, financial markets stabilized and equity markets largely rebounded – slowly at first and then rapidly the second half of the year. At the end of 2020, the S&P 500 Index had generated a total return of 18.10% for the full 12 months and 22.16% for the final six months of the year.

We believe the clear lesson is that investors who remained fully invested over the past year, in the face of uncertainty over the

direction of the pandemic and the unprecedented responses to it, were likely rewarded for their resolve.

Certainly, enormous challenges remain in both the implementation of global vaccinations and in the rebuilding of economies at the local, national and international levels. However, the advances in the fight against Covid-19 provide policymakers and investors with the opportunity to plan for the future and meet those challenges. J.P. Morgan Asset Management has thrived amid the many challenges presented by the pandemic. Moreover, our deep experience in risk management enabled us to better navigate increased volatility in global financial markets. Throughout 2020, we continued to seek to operate under the same fundamental practices and principles that have driven our success for more than a century with an unwavering focus on putting our clients at the center of everything we do.

On behalf of J.P. Morgan Asset Management, thank you for entrusting us to manage your investment. Should you have any questions, please visit www.jpmorganfunds.com or contact the J.P. Morgan Funds Service Center at 1-800-480-4111.

Sincerely yours,

A handwritten signature in dark ink that reads "Andrea".

JPMorgan Insurance Trust Mid Cap Value Portfolio

PORTFOLIO COMMENTARY

TWELVE MONTHS ENDED DECEMBER 31, 2020 (Unaudited)

REPORTING PERIOD RETURN:

Portfolio (Class 1 Shares)*	0.37%
Russell Midcap Value Index	4.96%
Net Assets as of 12/31/2020 (In Thousands)	\$447,529

INVESTMENT OBJECTIVE**

The JPMorgan Insurance Trust Mid Cap Value Portfolio (the “Portfolio”) seeks capital appreciation with the secondary goal of achieving current income by investing primarily in equity securities.

HOW DID THE MARKET PERFORM?

Global financial markets generally recovered from a sharp sell-off in the first quarter of 2020, led by a rally in equity markets in the second half of the year. Investor demand for equity was largely fueled by continued support from central banks, relief spending by governments across the globe and the development and approvals of the first vaccines against Covid-19.

In the first days of January 2020, financial markets largely shrugged off a brief flare-up in military tensions between the U.S. and Iran. However, the emergence and spread of Covid-19 fed increasing investor uncertainty and by early March, the novel coronavirus was declared a pandemic by the World Health Organization. The closure of large sectors of national economies on a global scale sparked a dramatic sell-off in financial markets. Yields on developed market sovereign bonds fell sharply and prices for commodity gold spiked. By the end of the first quarter of 2020, leading developed market equity indexes had lost 20% or more of their value from the start of the year. Corporate bond prices fell and the price of crude oil ended the first quarter down by 60%.

Leading central banks promptly responded with lower interest rates and/or asset purchasing programs, which helped to support asset price stability and head off a potential liquidity crunch in credit markets. Governments also responded with a range of fiscal stimulus or paycheck protection programs designed to cushion the economic impact of the pandemic. In the ensuing months, global equity markets staged a slow and uneven rebound, led by U.S. and emerging markets.

At the start of the second half of the year, U.S. equity led a broad rebound in both developed markets and emerging markets equity. Leading U.S. equity indexes rose in July and August 2020, punctuated by five consecutive record high closings for the S&P 500 in late August – a stretch not seen since 2017. Notably, Apple Inc. issued a 4-for-1 stock split in August and became the first publicly listed company with a valuation surpassing \$2 trillion. The U.S. Federal Reserve (the “Fed”) signaled its continued support for asset purchases and low benchmark interest rates. While the spread of Covid-19 accelerated in the

U.S., multiple candidate vaccines were being developed around the world and the number of hospitalizations at the end of the summer was relatively small compared with what was to come at the end of the year.

Equity prices across the globe largely declined over September and October 2020. Re-closings across Asia and Europe in response to Covid-19 dented investor optimism. The inability of the U.S. Congress to adopt further spending for pandemic relief put acute pressure on the S&P 500 in the final week of October.

U.S. equity prices began to rebound in November and by mid-month the S&P 500 reached a closing high and crossed 3,600 points for the first time amid the U.S. Food and Drug Administration’s approval of the first Covid-19 vaccines. While the results of the U.S. presidential election were contested, President-elect Joe Biden’s early cabinet choices – including former Fed Chairwoman Janet Yellen – removed some investor uncertainty. The Fed kept interest rates and policies unchanged and Congressional negotiations over proposed relief and stimulus spending continued through the month.

Globally, equity markets maintained upward momentum through the end of December, largely driven by investor expectations that mass vaccinations and the re-opening of economies would unleash pent up demand from consumers, businesses and governments. Notably, emerging markets equity outperformed developed markets equity, including U.S. equity in the second half of 2020 as China, Taiwan and South Korea appeared to have greater success in containing the pandemic.

In the U.S., growth stocks continued to outperform value stocks but the difference narrowed somewhat during the period as share price valuations rose. Additionally, shares of select companies that had seen their stock prices plummet in the first half of 2020 benefitted from increased investor appetite for bargains in the second half of the year. At year’s end, the largest 10 companies in the S&P 500 made up 27.4% of the index’s value, compared with 22.7% at the end of 2019 and 21.0% at the end of 2018.

WHAT WERE THE MAIN DRIVERS OF THE PORTFOLIO’S PERFORMANCE?

The Portfolio’s Class 1 Shares underperformed the Russell Midcap Value Index (the “Benchmark”) for the twelve months ended December 31, 2020. The Portfolio’s security selection in the real estate and health care sectors was a leading detractor

to performance relative to the Benchmark, while the Portfolio's security selection in the energy and financials sectors was a leading contributor to relative performance.

Leading individual detractors from relative performance included the Portfolio's underweight positions in Newmont Corp. and Digital Realty Trust Inc. and its overweight position in PVH Corp. Shares of Newmont, a gold mining and processing company not held in the Portfolio, rose due to increased investor demand for commodity gold amid financial market volatility in response to the pandemic. Shares of Digital Realty Trust, a real estate trust operating in the data center sector not held in the Portfolio, rose amid investor expectations for increased demand for data centers in response to office closures during the pandemic. Shares of PVH, a brand-name apparel and accessories company, fell early in the period after the company reported lower-than-expected earnings and revenue for its fiscal first quarter 2020.

Leading individual contributors to relative performance included the Portfolio's overweight positions in Synopsys Inc., Williams Cos. and T. Rowe Price Group Inc. Shares of Synopsys, a provider of software and consulting to the semiconductor industry, rose after the company reported better-than-expected earnings and revenue for its fiscal fourth quarter. Shares of Williams Cos., a natural gas and petroleum producer, rose amid investor expectations for growth in natural gas demand and a broader rebound in energy prices. Shares of T. Rowe Price Group, provider of mutual funds and other investment services, rose after the company reported better-than-expected earnings and revenue for the third quarter of 2021.

HOW WAS THE PORTFOLIO POSITIONED?

The portfolio managers utilized a bottom-up approach to stock selection and sought to identify durable franchises possessing the ability to generate, in the portfolio managers' view, sustainable levels of free cash flow. During the reporting period, the Portfolio maintained overweight positions in the financials and real estate sectors, while maintaining underweight positions in the industrials and materials sectors.

AVERAGE ANNUAL TOTAL RETURNS AS OF DECEMBER 31, 2020

	INCEPTION DATE OF CLASS	1 YEAR	5 YEAR	10 YEAR
CLASS 1 SHARES	September 28, 2001	0.37%	7.92%	10.31%

TEN YEAR PERFORMANCE (12/31/10 TO 12/31/20)

The performance quoted is past performance and is not a guarantee of future results. Mutual funds are subject to certain market risks. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data shown. For up-to-date month-end performance information please call 1-800-480-4111.

The graph illustrates comparative performance for \$10,000 invested in Class 1 Shares of the JPMorgan Insurance Trust Mid Cap Value Portfolio and the Russell Midcap Value Index from December 31, 2010 to December 31, 2020. The performance of the Portfolio assumes reinvestment of all dividends and capital gain distributions, if any. The performance of the Russell Midcap Value Index does not reflect the deduction of expenses associated with a mutual fund and has been adjusted to reflect reinvestment of all dividends and capital gain distributions of the

securities included in the benchmark, if applicable. The Russell Midcap Value Index is an unmanaged index which measures the performance of those Russell Midcap companies with lower price-to-book ratios and lower forecasted growth values. Investors cannot invest directly in an index.

Portfolio performance does not reflect any charges imposed by the Policies or Eligible Plans. If these charges were included, the returns would be lower than shown. Portfolio performance may reflect the waiver of the Portfolio's fees and reimbursement of expenses for certain periods. Without these waivers and reimbursements, performance would have been lower.

The returns shown are based on net asset values calculated for shareholder transactions and may differ from the returns shown in the financial highlights, which reflect adjustments made to the net asset values in accordance with accounting principles generally accepted in the United States of America.

SEE NOTES TO FINANCIAL STATEMENTS.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2020

1. Organization

JPMorgan Insurance Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company and is a Massachusetts business trust.

The following is a separate portfolio of the Trust (the “Portfolio”) covered by this report:

	Class Offered	Diversification Classification
JPMorgan Insurance Trust Mid Cap Value Portfolio	Class 1	Diversified

The investment objective of the Portfolio is to seek capital appreciation with the secondary goal of achieving current income by investing primarily in equity securities.

Portfolio shares are offered only to separate accounts of participating insurance companies and Eligible Plans. Individuals may not purchase shares directly from the Portfolio.

J.P. Morgan Investment Management Inc. (“JPMIM”), an indirect, wholly-owned subsidiary of JPMorgan Chase & Co. (“JPMorgan”), acts as Adviser (the “Adviser”) and Administrator (the “Administrator”) to the Portfolio.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Portfolio in the preparation of its financial statements. The Portfolio is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 – *Investment Companies*, which is part of U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) disclosure of contingent assets and liabilities at the date of the financial statements, and (iii) the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A. Valuation of Investments – Investments are valued in accordance with GAAP and the Portfolio’s valuation policies set forth by, and under the supervision and responsibility of, the Board of Trustees of the Trust (the “Board”), which established the following approach to valuation, as described more fully below: (i) investments for which market quotations are readily available shall be valued at their market value and (ii) all other investments for which market quotations are not readily available shall be valued at their fair value as determined in good faith by the Board.

The Administrator has established the J.P. Morgan Asset Management Americas Valuation Committee (“AVC”) to assist the Board with the oversight and monitoring of the valuation of the Portfolio’s investments. The Administrator implements the valuation policies of the Portfolio’s investments, as directed by the Board. The AVC oversees and carries out the policies for the valuation of investments held in the Portfolio. This includes monitoring the appropriateness of fair values based on results of ongoing valuation oversight including, but not limited to, consideration of macro or security specific events, market events, and pricing vendor and broker due diligence. The Administrator is responsible for discussing and assessing the potential impacts to the fair values on an ongoing basis, and, at least on a quarterly basis, with the AVC and the Board.

Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the net asset value (“NAV”) of the Portfolio is calculated on a valuation date.

Investments in open-end investment companies (“Underlying Funds”) are valued at each Underlying Fund’s NAV per share as of the report date.

Valuations reflected in this report are as of the report date. As a result, changes in valuation due to market events and/or issuer-related events after the report date and prior to issuance of the report are not reflected herein.

The various inputs that are used in determining the valuation of the Portfolio’s investments are summarized into the three broad levels listed below.

- Level 1 – Unadjusted inputs using quoted prices in active markets for identical investments.
- Level 2 – Other significant observable inputs including, but not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.
- Level 3 – Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Portfolio’s assumptions in determining the fair value of investments).

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement. The inputs or methodology used for valuing instruments are not necessarily an indication of the risk associated with investing in those instruments.

The following table represents each valuation input as presented on the Schedule of Portfolio Investments (“SOI”) (amounts in thousands):

	Level 1 Quoted prices	Level 2 Other significant observable inputs	Level 3 Significant unobservable inputs	Total
Total Investments in Securities (a)	<u>\$ 449,609</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 449,609</u>

(a) Please refer to the SOI for specifics of portfolio holdings.

B. Securities Lending – The Portfolio is authorized to engage in securities lending in order to generate additional income. The Portfolio is able to lend to approved borrowers. Citibank N.A. (“Citibank”) serves as lending agent for the Portfolio, pursuant to a Securities Lending Agency Agreement (the “Securities Lending Agency Agreement”). Securities loaned are collateralized by cash equal to at least 100% of the market value plus accrued interest on the securities lent, which is invested in the Class IM Shares of the JPMorgan U.S. Government Money Market Fund and the Agency SL Class Shares of the JPMorgan Securities Lending Money Market Fund. The Portfolio retains loan fees and the interest on cash collateral investments but is required to pay the borrower a rebate for the use of cash collateral. In cases where the lent security is of high value to borrowers, there may be a negative rebate (i.e., a net payment from the borrower to the Portfolio). Upon termination of a loan, the Portfolio is required to return to the borrower an amount equal to the cash collateral, plus any rebate owed to the borrowers. The remaining maturities of the securities lending transactions are considered overnight and continuous. Loans are subject to termination by the Portfolio or the borrower at any time.

The net income earned on the securities lending (after payment of rebates and Citibank’s fee) is included on the Statement of Operations as Income from securities lending (net). The Portfolio also receives payments from the borrower during the period of the loan, equivalent to dividends and interest earned on the securities loaned, which are recorded as Dividend or Interest income, respectively, on the Statement of Operations.

Under the Securities Lending Agency Agreement, Citibank marks to market the loaned securities on a daily basis. In the event the cash received from the borrower is less than 102% of the value of the loaned securities (105% for loans of non-U.S. securities), Citibank requests additional cash from the borrower so as to maintain a collateralization level of at least 102% of the value of the loaned securities plus accrued interest (105% for loans of non-U.S. securities), subject to certain *de minimis* amounts.

The value of securities out on loan is recorded as an asset on the Statement of Assets and Liabilities. The value of the cash collateral received is recorded as a liability on the Statement of Assets and Liabilities and details of collateral investments are disclosed on the SOI.

The Portfolio bears the risk of loss associated with the collateral investments and is not entitled to additional collateral from the borrower to cover any such losses. To the extent that the value of the collateral investments declines below the amount owed to a borrower, the Portfolio may incur losses that exceed the amount it earned on lending the security. Upon termination of a loan, the Portfolio may use leverage (borrow money) to repay the borrower for cash collateral posted if the Adviser does not believe that it is prudent to sell the collateral investments to fund the payment of this liability. Securities lending activity is subject to master netting arrangements.

The following table presents the Portfolio’s value of the securities on loan with Citibank, net of amounts available for offset under the master netting arrangements and any related collateral received or posted by the Portfolio as of December 31, 2020 (amounts in thousands).

Investment Securities on Loan, at value, Presented on the Statement of Assets and Liabilities	Cash Collateral Posted by Borrower*	Net Amount Due to Counterparty (not less than zero)
\$1,342	\$(1,342)	\$-

* Collateral posted reflects the value of securities on loan and does not include any additional amounts received from the borrower.

Securities lending also involves counterparty risks, including the risk that the loaned securities may not be returned in a timely manner or at all. Subject to certain conditions, Citibank has agreed to indemnify the Portfolio from losses resulting from a borrower’s failure to return a loaned security.

JPMIM voluntarily waived investment advisory fees charged to the Portfolio to reduce the impact of the cash collateral investment in the JPMorgan U.S. Government Money Market Fund from 0.15% to 0.06%. For the year ended December 31, 2020, JPMIM waived fees associated with the Portfolio’s investment in the JPMorgan U.S. Government Money Market Fund as follows (amounts in thousands):

\$2

The above waiver is included in the determination of earnings on cash collateral investment and in the calculation of Citibank’s compensation and is included on the Statement of Operations as Income from securities lending (net).

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 (continued)

C. Investment Transactions with Affiliates – The Portfolio invested in Underlying Funds which are advised by the Adviser. An issuer which is under common control with the Portfolio may be considered an affiliate. For the purposes of the financial statements, the Portfolio assumes the issuers listed in the table below to be affiliated issuers. Underlying Funds' distributions may be reinvested into the Underlying Funds. Reinvestment amounts are included in the purchase cost amounts in the table below. Amounts in the table below are in thousands.

For the year ended December 31, 2020									
Security Description	Value at December 31, 2019	Purchases at Cost	Proceeds from Sales	Net Realized Gain (Loss)	Change in Unrealized Appreciation/ (Depreciation)	Value at December 31, 2020	Shares at December 31, 2020	Dividend Income	Capital Gain Distributions
JPMorgan Securities Lending Money Market Fund Agency SL Class Shares, 0.15% (a) (b)	\$ –	\$ 11,400	\$ 11,000	\$–*(c)	\$–(c)	\$ 400	400	\$ 8*	\$–
JPMorgan U.S. Government Money Market Fund Class IM Shares, 0.03% (a) (b)	–	80,935	79,948	–	–	987	987	7*	–
JPMorgan U.S. Government Money Market Fund Class Institutional Shares, 0.03% (a) (b)	<u>9,286</u>	<u>72,282</u>	<u>76,677</u>	<u>–</u>	<u>–</u>	<u>4,891</u>	4,891	<u>28</u>	<u>–</u>
Total	<u>\$9,286</u>	<u>\$164,617</u>	<u>\$167,625</u>	<u>\$–(c)</u>	<u>\$–(c)</u>	<u>\$6,278</u>		<u>\$43</u>	<u>\$–</u>

(a) Investment in an affiliated fund, which is registered under the Investment Company Act of 1940, as amended, and is advised by J.P. Morgan Investment Management Inc.

(b) The rate shown is the current yield as of December 31, 2020.

(c) Amount rounds to less than one thousand.

* Amount is included on the Statement of Operations as Income from securities lending (net) (after payments of rebates and Citibank's fee).

D. Security Transactions and Investment Income – Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Securities gains and losses are calculated on a specifically identified cost basis. Dividend income is recorded on the ex-dividend date or when the Portfolio first learns of the dividend.

To the extent such information is publicly available, the Portfolio records distributions received in excess of income earned from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The Portfolio adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as necessary, once the issuers provide information about the actual composition of the distributions.

E. Allocation of Expenses – Expenses directly attributable to the Portfolio are charged directly to the Portfolio, while the expenses attributable to more than one portfolio of the Trust are allocated among the applicable portfolios.

F. Federal Income Taxes – The Portfolio is treated as a separate taxable entity for Federal income tax purposes. The Portfolio's policy is to comply with the provisions of the Internal Revenue Code (the "Code") applicable to regulated investment companies and to distribute to shareholders all of its distributable net investment income and net realized capital gains on investments. Accordingly, no provision for Federal income tax is necessary. The Portfolio is also a segregated portfolio of assets for insurance purposes and intends to comply with the diversification requirements of Subchapter L of the Code. Management has reviewed the Portfolio's tax positions for all open tax years and has determined that as of December 31, 2020, no liability for Federal income tax is required in the Portfolio's financial statements for net unrecognized tax benefits. However, management's conclusions may be subject to future review based on changes in, or the interpretation of, the accounting standards or tax laws and regulations. The Portfolio's Federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

G. Distributions to Shareholders – Distributions from net investment income, if any, are generally declared and paid at least annually. Net realized capital gains, if any, are distributed at least annually. The amount of distributions from net investment income and net realized capital gains is determined in accordance with Federal income tax regulations, which may differ from GAAP. To the extent these "book/tax" differences are permanent in nature (i.e., that they result from other than timing of recognition – "temporary differences"), such amounts are reclassified within the capital accounts based on their Federal tax basis treatment.

H. Recent Accounting Pronouncement – In March 2020, the FASB issued Accounting Standards Update No. 2020-04 ("ASU 2020-04"), *Reference Rate Reform (Topic 848) - Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. ASU 2020-04 provides optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate ("LIBOR") and other interbank-offered based reference rates as of the end of 2021. ASU 2020-04 became effective upon the issuance and its optional relief can be applied through December 31, 2022. Management is currently evaluating the impact, if any, to the Portfolio's financial statements of applying ASU 2020-04.

3. Fees and Other Transactions with Affiliates

A. Investment Advisory Fee – Pursuant to an Investment Advisory Agreement, the Adviser manages the investments of the Portfolio and for such services is paid a fee. The investment advisory fee is accrued daily and paid monthly at an annual rate of 0.65% of the Portfolio's average daily net assets.

The Adviser waived investment advisory fees and/or reimbursed expenses as outlined in Note 3.E.

B. Administration Fee – Pursuant to an Administration Agreement, the Administrator provides certain administration services to the Portfolio. In consideration of these services, the Administrator receives a fee accrued daily and paid monthly at an annual rate of 0.075% of the first \$10 billion of the Portfolio's average daily net assets, plus 0.050% of the Portfolio's average daily net assets between \$10 billion and \$20 billion, plus 0.025% of the Portfolio's average daily net assets between \$20 billion and \$25 billion, plus 0.01% of the Portfolio's average daily net assets in excess of \$25 billion. For the year ended December 31, 2020, the effective rate was 0.075% of the Portfolio's average daily net assets, notwithstanding any fee waivers and/or expense reimbursements.

The Administrator waived administration fees as outlined in Note 3.E.

JPMorgan Chase Bank, N.A. ("JPMCB"), a wholly-owned subsidiary of JPMorgan, serves as the Portfolio's sub-administrator (the "Sub-administrator"). For its services as Sub-administrator, JPMCB receives a portion of the fees payable to the Administrator.

C. Distribution Fees – Pursuant to a Distribution Agreement, JPMorgan Distribution Services, Inc. ("JPMS"), an indirect, wholly-owned subsidiary of JPMorgan, serves as the Portfolio's principal underwriter and promotes and arranges for the sale of the Portfolio's shares.

D. Custodian and Accounting Fees – JPMCB provides portfolio custody and accounting services to the Portfolio. For performing these services, the Portfolio pays JPMCB transaction and asset-based fees that vary according to the number of transactions and positions, plus out-of-pocket expenses. The amounts paid directly to JPMCB by the Portfolio for custody and accounting services are included in Custodian and accounting fees on the Statement of Operations.

Interest income earned on cash balances at the custodian, if any, is included in Interest income from affiliates on the Statement of Operations.

Interest expense paid to the custodian related to cash overdrafts, if any, is included in Interest expense to affiliates on the Statement of Operations.

E. Waivers and Reimbursements – The Adviser and/or Administrator have contractually agreed to waive fees and/or reimburse the Portfolio to the extent that total annual operating expenses of the Portfolio (excluding acquired fund fees and expenses other than certain money market fund fees as described below, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation, expenses related to trustee elections and extraordinary expenses) exceed 0.90% of the Portfolio's average daily net assets.

The expense limitation agreement was in effect for the year ended December 31, 2020 and the contractual expense limitation percentage is in place until at least April 30, 2021.

For the year ended December 31, 2020, the Portfolio's service providers did not waive fees and/or reimburse expenses for the Portfolio.

Additionally, the Portfolio may invest in one or more money market funds advised by the Adviser (affiliated money market funds). The Adviser and/or Administrator have contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the respective net fees each collects from the affiliated money market fund on the Portfolio's investment in such affiliated money market fund, except for investments of securities lending cash collateral. None of these parties expect the Portfolio to repay any such waived fees and/or reimbursed expenses in future years.

The amount of these waivers resulting from investments in these money market funds for the year ended December 31, 2020 was approximately \$18,000.

F. Other – Certain officers of the Trust are affiliated with the Adviser, the Administrator and JPMS. Such officers, with the exception of the Chief Compliance Officer, receive no compensation from the Portfolio for serving in their respective roles.

The Board designated and appointed a Chief Compliance Officer to the Portfolio pursuant to Rule 38a-1 under the 1940 Act. The Portfolio, along with affiliated portfolios, makes reimbursement payments, on a pro-rata basis, to the Administrator for a portion of the fees associated with the office of the Chief Compliance Officer. Such fees are included in Trustees' and Chief Compliance Officer's fees on the Statement of Operations.

The Trust adopted a Trustee Deferred Compensation Plan (the "Plan") which allows the independent Trustees to defer the receipt of all or a portion of compensation related to performance of their duties as Trustees. The deferred fees are invested in various J.P. Morgan Funds until distribution in accordance with the Plan.

During the year ended December 31, 2020, the Portfolio purchased securities from an underwriting syndicate in which the principal underwriter or members of the syndicate were affiliated with the Adviser.

The Securities and Exchange Commission ("SEC") has granted an exemptive order permitting the Portfolio to engage in principal transactions with J.P. Morgan Securities LLC, an affiliated broker, involving taxable money market instruments, subject to certain conditions.

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 (continued)

4. Investment Transactions

During the year ended December 31, 2020, purchases and sales of investments (excluding short-term investments) were as follows (amounts in thousands):

	Purchases (excluding U.S. Government)	Sales (excluding U.S. Government)
	\$80,794	\$114,900

During the year ended December 31, 2020, there were no purchases or sales of U.S. Government securities.

5. Federal Income Tax Matters

For Federal income tax purposes, the estimated cost and unrealized appreciation (depreciation) in value of investments held at December 31, 2020 were as follows (amounts in thousands):

	Aggregate Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
	\$283,435	\$178,803	\$12,629	\$166,174

The difference between book and tax basis appreciation (depreciation) on investments is primarily attributed to wash sale loss deferrals.

The tax character of distributions paid during the year ended December 31, 2020 was as follows (amounts in thousands):

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$6,105	\$25,471	\$31,576

* Short-term gain distributions are treated as ordinary income for income tax purposes.

The tax character of distributions paid during the year ended December 31, 2019 was as follows (amounts in thousands):

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$9,269	\$30,862	\$40,131

* Short-term gain distributions are treated as ordinary income for income tax purposes.

As of December 31, 2020, the estimated components of net assets (excluding paid-in-capital) on a tax basis were as follows (amounts in thousands):

	Current Distributable Ordinary Income	Current Distributable Long-Term Capital Gain (Tax Basis Capital Loss Carryover)	Unrealized Appreciation (Depreciation)
	\$5,355	\$24,528	\$166,174

The cumulative timing differences primarily consist of wash sale loss deferrals.

As of December 31, 2020, the Portfolio did not have any net capital loss carryforwards.

6. Borrowings

The Portfolio relies upon an exemptive order granted by the SEC (the "Order") permitting the establishment and operation of an Interfund Lending Facility (the "Facility"). The Facility allows the Portfolio to directly lend and borrow money to or from any other fund relying upon the Order at rates beneficial to both the borrowing and lending funds. Advances under the Facility are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. The Interfund loan rate is determined, as specified in the Order, by averaging the current repurchase agreement rate and the current bank loan rate. The Order was granted to the Trust and may be relied upon by the Portfolio because the Portfolio and the series of the Trust are all investment companies in the same "group of investment companies" (as defined in Section 12(d)(1)(G) of the 1940 Act).

The Portfolio had no borrowings outstanding from another fund during the year ended December 31, 2020.

The Trust and JPMCB have entered into a financing arrangement. Under this arrangement, JPMCB provides an unsecured, uncommitted credit facility in the aggregate amount of \$100 million to certain of the J.P. Morgan Funds, including the Portfolio. Advances under the arrangement are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. Interest on borrowings is payable at a rate determined by JPMCB at the time of borrowing. This agreement has been extended until November 1, 2021.

The Portfolio had no borrowings outstanding from the unsecured, uncommitted credit facility during the year ended December 31, 2020.

The Trust, along with certain other trusts for J.P. Morgan Funds ("Borrowers"), has entered into a joint syndicated senior unsecured revolving credit facility totaling \$1.5 billion ("Credit Facility") with various lenders and The Bank of New York Mellon, as administrative agent for the lenders. This Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. Under the terms of the Credit Facility, a borrowing portfolio must have a minimum of \$25,000,000 in adjusted net asset value and not exceed certain adjusted net asset coverage ratios prior to and during the time in which any borrowings are outstanding. If a portfolio does not comply with the aforementioned requirements, the portfolio must remediate within three business days with respect to the \$25,000,000 minimum adjusted net asset value or within one business day with respect to certain asset coverage ratios or the administrative agent at the request of, or with the consent of, the lenders may terminate the Credit Facility and declare any outstanding borrowings to be due and payable immediately.

Interest associated with any borrowing under the Credit Facility is charged to the borrowing portfolio at a rate of interest equal to 1.00%, which has increased to 1.25% pursuant to the amendment referenced below, plus the greater of the federal funds effective rate or one month LIBOR. The annual commitment fee to maintain the Credit Facility is 0.15% and is incurred on the unused portion of the Credit Facility and is allocated to all participating portfolios pro rata based on their respective net assets. Effective August 11, 2020, this agreement has been amended and restated for a term of 364 days, unless extended, and to include the change to the interest rate charged for borrowing from the Credit Facility to 1.25%, as noted above, and an upfront fee of 0.075% of the Credit Facility to be charged and paid by all participating funds of the Credit Facility.

The Portfolio did not utilize the Credit Facility during the year ended December 31, 2020.

7. Risks, Concentrations and Indemnifications

In the normal course of business, the Portfolio enters into contracts that contain a variety of representations which provide general indemnifications. The Portfolio's maximum exposure under these arrangements is unknown. The amount of exposure would depend on future claims that may be brought against the Portfolio. However, based on experience, the Portfolio expects the risk of loss to be remote.

As of December 31, 2020, the Portfolio had two individual shareholder and/or non-affiliated omnibus accounts, which owned 76.4% of the Portfolio's outstanding shares.

Significant shareholder transactions by these shareholders may impact the Portfolio's performance and liquidity.

Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic and market conditions and could result in losses that significantly exceed the Portfolio's original investment. Many derivatives create leverage thereby causing the Portfolio to be more volatile than they would have been if they had not used derivatives. Derivatives also expose the Portfolio to counterparty risk (the risk that the derivative counterparty will not fulfill its contractual obligations), including credit risk of the derivative counterparty. The possible lack of a liquid secondary market for derivatives and the resulting inability of the Portfolio to sell or otherwise close a derivatives position could expose the Portfolio to losses.

LIBOR is intended to represent the rate at which contributing banks may obtain short-term borrowings from each other in the London interbank market. The regulatory authority that oversees financial services firms and financial markets in the U.K. has announced that, after the end of 2021, it would no longer persuade or compel contributing banks to make rate submissions for purposes of determining the LIBOR rate. As a result, it is possible that commencing in 2022, LIBOR may no longer be available or no longer deemed an appropriate reference rate upon which to determine the interest rate on or impacting certain loans, notes, derivatives and other instruments or investments comprising some or all of the Portfolio's portfolio. In light of this eventuality, public and private sector industry initiatives are currently underway to identify new or alternative reference rates to be used in place of LIBOR. There is no assurance that the composition or characteristics of any such alternative reference rate will be similar to or produce the same value or economic equivalence as LIBOR or that it will have the same volume or liquidity as did LIBOR prior to its discontinuance or unavailability, which may affect the value or liquidity or return on certain investments of the Portfolio and result in costs incurred in connection with closing out positions and entering into new trades. These risks may also apply with respect to changes in connection with other interbank offering rates (e.g., Euribor) and a wide range of other index levels, rates and values that are treated as "benchmarks" and are the subject of recent regulatory reform.

The Portfolio is subject to infectious disease epidemics/pandemics risk. The worldwide outbreak of COVID-19, a novel coronavirus disease, has negatively affected economies, markets and individual companies throughout the world. The effects of this COVID-19 pandemic to public health, and business and market conditions, including exchange trading suspensions and closures may continue to have a significant negative impact on the performance of the Portfolio's investments, increase the Portfolio's volatility, exacerbate other pre-existing political, social and economic risks to the Portfolio and negatively impact broad segments of businesses and populations. The Portfolio's operations may be interrupted as a result, which may have a significant negative impact on investment performance. In addition, governments, their regulatory agencies, or self-regulatory organizations may take actions in response to the pandemic that affect the instruments in which the Portfolio invests, or the issuers of such instruments, in ways that could also have a significant negative impact on the Portfolio's investment performance. The full impact of this COVID-19 pandemic, or other future epidemics/pandemics, is currently unknown.

8. Subsequent Event

On February 10, 2021, the contractual expense limitation for Class 1 Shares was extended until at least April 30, 2022.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of JPMorgan Insurance Trust and Shareholders of JPMorgan Insurance Trust Mid Cap Value Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of portfolio investments, of JPMorgan Insurance Trust Mid Cap Value Portfolio (one of the portfolios constituting JPMorgan Insurance Trust, referred to hereafter as the “Portfolio”) as of December 31, 2020, the related statement of operations for the year ended December 31, 2020, the statements of changes in net assets for each of the two years in the period ended December 31, 2020, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2020 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio as of December 31, 2020, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2020 and the financial highlights for each of the five years in the period ended December 31, 2020 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Portfolio’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolio in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020 by correspondence with the custodian and transfer agent. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP
New York, New York
February 12, 2021

We have served as the auditor of one or more investment companies in the JPMorgan Funds complex since 1993.

TRUSTEES

(Unaudited)

The Portfolio's Statement of Additional Information includes additional information about the Portfolio's Trustees and is available, without charge, upon request by calling 1-800-480-4111 or on the J.P. Morgan Funds' website at www.jpmorganfunds.com.

Name (Year of Birth); Positions With the Portfolio ⁽¹⁾	Principal Occupation During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee ⁽²⁾	Other Directorships Held During the Past 5 Years
Independent Trustees

Associate, Special Properties, a Christie's International Real Estate Affiliate (2010-present); Managing Director, Bank of America (Asset Management) (2007-2008); Chief Operating Officer, U.S. Trust Asset Management, U.S. Trust Company (asset management) (2003-2007); President, Excelsior Funds (registered investment companies) (2004-2005).	128	None
Marilyn McCoy (1948); Trustee of Trust since 2005; Trustee of heritage One Group Mutual Funds since 1999.	Vice President of Administration and Planning, Northwestern University (1985-present).	128	None
Mitchell M. Merin (1953); Trustee of Trust since 2013. ⁽⁴⁾	Retired; President and Chief Operating Officer, Morgan Stanley Investment Management, Member, Morgan Stanley & Co. Management Committee (serving in various roles 1981- 2006).	128	Director, Sun Life Financial (SLF) (financial services and insurance) (2007-2013).
Dr. Robert A. Oden, Jr. (1946); Trustee of Trust since 2005; Trustee of heritage One Group Mutual Funds since 1997.	Retired; President, Carleton College (2002-2010); President, Kenyon College (1995-2002).	128	Trustee and Vice Chair, Trout Unlimited (2017-present); Trustee, American Museum of Fly Fishing (2013-present); Vice Chair, Dartmouth- Hitchcock Medical Center (2011- present); Trustee, American University in Cairo (1999-2014).

Name (Year of Birth); Positions With the Portfolio ⁽¹⁾	Principal Occupation During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee ⁽²⁾	Other Directorships Held During the Past 5 Years
Independent Trustees (continued)			
Marian U. Pardo*** (1946); Trustee of Trust since 2013.	Managing Director and Founder, Virtual Capital Management LLC (investment consulting) (2007-present); Managing Director, Credit Suisse Asset Management (portfolio manager) (2003-2006).	128	President and Member, Board of Governors, Columbus Citizens Foundation (not-for-profit supporting philanthropic and cultural programs) (2006-present).

⁽¹⁾ The Trustees serve for an indefinite term, subject to the Trust's current retirement policy, which is age 78 for all Trustees.

⁽²⁾ A Fund Complex means two or more registered investment companies that hold themselves out to investors as related companies for purposes of investment and investor services or have a common investment adviser or have an investment adviser that is an affiliated person of the investment adviser of any of the other registered investment companies. The J.P. Morgan Funds Complex for which the Board of Trustees serves currently includes ten registered investment companies (128 funds).

⁽³⁾ Mr. Marshall retired from the Board of Trustees effective the close of business on December 31, 2020.

⁽⁴⁾ Mr. Merin retired from the Board of Trustees effective the close of business on January 31, 2021.

* Two family members of Mr. Harrington are partner and managing director, respectively, of the Portfolio's independent registered public accounting firm. Such firm has represented to the Board that those family members are not involved in the audit of the Portfolio's financial statements and do not provide other services to the Portfolio. The Board has concluded that such association does not interfere with Mr. Harrington's exercise of independent judgment as an Independent Trustee.

** A family member of Mr. Kanner is employed by JPMorgan Chase Bank, which is affiliated with JPMIM and JPMDS. In that capacity, this employee provides services to various JPMorgan affiliates including JPMIM and JPMDS and for which JPMIM and JPMDS bear some portion of the expense thereof.

*** In connection with prior employment with JPMorgan Chase, Ms. Pardo was the recipient of non-qualified pension plan payments from JPMorgan Chase in the amount of approximately \$2,055 per month, which she irrevocably waived effective January 1, 2013, and deferred compensation payments from JPMorgan Chase in the amount of approximately \$7,294 per year, which ended in January 2013. In addition, Ms. Pardo receives payments from a fully-funded qualified plan, which is not an obligation of JPMorgan Chase.

The contact address for each of the Trustees is 277 Park Avenue, New York, NY 10172.

OFFICERS

(Unaudited)

Name (Year of Birth), Positions Held with the Trust (Since)	Principal Occupations During Past 5 Years
Brian S. Shlissel (1964), President and Principal Executive Officer (2016)*	Managing Director and Chief Administrative Officer for J.P. Morgan pooled vehicles, J.P. Morgan Investment Management Inc. Gillian I. Sands (1969), Assistant Treasurer (2012)**	Vice President, J.P. Morgan Investment Management Inc. (formerly JPMorgan Funds Management, Inc.) since September 2012.

The contact address for each of the officers, unless otherwise noted, is 277 Park Avenue, New York, NY 10172.

* The contact address for the officer is 575 Washington Boulevard, Jersey City, NJ 07310.

** The contact address for the officer is 4 New York Plaza, New York, NY 10004.

*** The contact address for the officer is 1111 Polaris Parkway, Columbus, OH 43240.

SCHEDULE OF SHAREHOLDER EXPENSES

(Unaudited)

Hypothetical \$1,000 Investment

As a shareholder of the Portfolio, you incur ongoing costs, including investment advisory fees, administration fees and other Portfolio expenses. Because the Portfolio is a funding vehicle for Policies and Eligible Plans, you may also incur sales charges and other fees relating to the Policies or Eligible Plans. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio, but not the costs of the Policies or Eligible Plans, and to compare these ongoing costs with the ongoing costs of investing in other mutual funds. The examples assume that you had a \$1,000 investment in the Portfolio at the beginning of the reporting period, July 1, 2020, and continued to hold your shares at the end of the reporting period, December 31, 2020.

Actual Expenses

The first line provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading titled “Expenses Paid During the Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads) or redemption fees or the costs associated with the Policies and Eligible Plans through which the Portfolio is held. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher. The examples also assume all dividends and distributions have been reinvested.

	Beginning Account Value July 1, 2020	Ending Account Value December 31, 2020	Expenses Paid During the Period*	Annualized Expense Ratio
JPMorgan Insurance Trust Mid Cap Value Portfolio Class 1				
Actual	\$1,000.00	\$1,248.90	\$4.35	0.77%
Hypothetical	1,000.00	1,021.27	3.91	0.77

* Expenses are equal to the Portfolio’s annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited)

The Board of Trustees has established various standing committees composed of Trustees with diverse backgrounds, to which the Board of Trustees has assigned specific subject matter responsibilities to further enhance the effectiveness of the Board's oversight and decision making. The Board of Trustees and its investment committees (money market and alternative products, equity, and fixed income) meet regularly throughout the year and consider factors that are relevant to their annual consideration of investment advisory agreements at each meeting. They also meet for the specific purpose of considering investment advisory agreement annual renewals. The Board of Trustees held meetings in June and August 2020, at which the Trustees considered the continuation of the investment advisory agreement for the Portfolio whose annual report is contained herein (the "Advisory Agreement"). In accordance with SEC guidance, due to the COVID-19 pandemic, the meetings were conducted through video conference. At the June meeting, the Board's investment committees met to review and consider performance, expense and related information for the J.P. Morgan Funds. Each investment committee reported to the full Board, which then considered the investment committee's preliminary findings. At the August meeting, the Trustees continued their review and consideration. The Trustees, including a majority of the Trustees who are not parties to the Advisory Agreement or "interested persons" (as defined in the 1940 Act) of any party to the Advisory Agreement or any of their affiliates, approved the continuation of the Advisory Agreement on August 11, 2020.

As part of their review of the Advisory Agreement, the Trustees considered and reviewed performance and other information about the Portfolio received from the Adviser. This information includes the Portfolio's performance as compared to the performance of its peers and benchmarks and analyses by the Adviser of the Portfolio's performance. In addition, at each of their regular meetings throughout the year, the Trustees considered reports on the performance of certain J.P. Morgan Funds provided by an independent management consulting firm ("independent consultant"). In addition, in preparation for the June and August meetings, the Trustees requested, received and evaluated extensive materials from the Adviser, including performance and expense information compiled by Broadridge, using data from Lipper Inc. and/or Morningstar Inc., independent providers of investment company data (together, "Broadridge"). Before voting on the Advisory Agreement, the Trustees reviewed the Advisory Agreement with representatives of the Adviser, counsel to the Trust and independent legal counsel and received a memorandum from independent legal counsel to the Trustees discussing the legal standards for their consideration of the Advisory Agreement. The Trustees also discussed the Advisory Agreement in executive sessions with independent legal counsel at which no representatives of the Adviser were present.

A summary of the material factors evaluated by the Trustees in determining whether to approve the Advisory Agreement is provided below. Each Trustee attributed different weights to the various factors and no factor alone was considered determinative. The Trustees considered information provided with respect to the Portfolio throughout the year, including additional reporting and information provided in connection with the market volatility caused by the COVID-19 pandemic, as well as materials furnished specifically in connection with the annual review process. From year to year, the Trustees consider and place emphasis on relevant information in light of changing circumstances in market and economic conditions.

After considering and weighing the factors and information they had received, the Trustees found that the compensation to be received by the Adviser from the Portfolio under the Advisory Agreement was fair and reasonable under the circumstances and determined that the continuance of the Advisory Agreement was in the best interests of the Portfolio and its shareholders.

Nature, Extent and Quality of Services Provided by the Adviser

The Trustees received and considered information regarding the nature, extent and quality of services provided to the Portfolio under the Advisory Agreement. The Trustees took into account information furnished throughout the year at Trustee meetings, as well as the materials furnished specifically in connection with this annual review process. The Trustees considered the background and experience of the Adviser's senior management, personnel changes, if any, and the expertise of, and the amount of attention given to the Portfolio by, investment personnel of the Adviser. In addition, the Trustees reviewed the qualifications, backgrounds and responsibilities of the portfolio management team primarily responsible for the day-to-day management of the Portfolio and the infrastructure supporting the team, including personnel changes, if any. In addition, the Board considered its discussions with the Adviser regarding the Adviser's business continuity plan and steps the Adviser was taking to provide ongoing services to the Portfolio during the COVID-19 pandemic, and the Adviser's success in continuing to provide services to the Portfolio and their shareholders throughout this period. The Trustees also considered information provided by the Adviser and JPMorgan Distribution Services, Inc. ("JPMDS") about the structure and distribution strategy of the Portfolio. The Trustees reviewed information relating to the Adviser's risk governance model and reports showing the Adviser's compliance structure and ongoing compliance processes. The Trustees also considered the quality of the administration services provided by the Adviser in its role as administrator.

The Trustees also considered their knowledge of the nature and quality of services provided by the Adviser and its affiliates to the Portfolio gained from their experience as Trustees of the

J.P. Morgan Funds. In addition, they considered the overall reputation and capabilities of the Adviser and its affiliates, the commitment of the Adviser to provide high quality service to the Portfolio, their overall confidence in the Adviser's integrity and the Adviser's responsiveness to questions or concerns raised by them, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the Portfolio.

Based upon these considerations and other factors, the Trustees concluded that they were satisfied with the nature, extent and quality of the investment advisory services provided to the Portfolio by the Adviser.

Costs of Services Provided and Profitability to the Adviser and its Affiliates

The Trustees received and considered information regarding the profitability to the Adviser and its affiliates in providing services to the Portfolio. The Trustees reviewed and discussed this information. The Trustees recognized that this information is not audited and represents the Adviser's determination of its and its affiliates' revenues from the contractual services provided to the Portfolio, less expenses of providing such services. Expenses include direct and indirect costs and are calculated using an allocation methodology developed by the Adviser. The Trustees also recognized that it is difficult to make comparisons of profitability from fund investment advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the fact that publicly-traded fund managers' operating profits and net income are net of distribution and marketing expenses. Based upon their review, and taking into consideration the factors noted above, the Trustees concluded that the profitability to the Adviser under the Advisory Agreement was not unreasonable in light of the services and benefits provided to the Portfolio.

The Trustees also considered that the Adviser earns fees from the Portfolio for providing administration services. These fees were shown separately in the profitability analysis presented to the Trustees. The Trustees also considered the fees paid to JPMorgan Chase Bank, N.A. ("JPMCB") for custody and fund accounting and other related services.

Fall-Out Benefits

The Trustees reviewed information regarding potential "fall-out" or ancillary benefits received by the Adviser and its affiliates as a result of their relationship with the Portfolio. The Trustees considered that the J.P. Morgan Funds' operating accounts are held at JPMCB, which, as a result, will receive float benefits for certain J.P. Morgan Funds, as applicable. The

Trustees also noted that the Adviser supports a diverse set of products and services, which benefits the Adviser by allowing it to leverage its infrastructure to serve additional clients, including benefits that may be received by the Adviser and its affiliates in connection with the Portfolio's potential investments in other funds advised by the Adviser. The Trustees also reviewed the Adviser's allocation of fund brokerage for the J.P. Morgan Funds complex, including allocations to brokers who provide research to the Adviser.

Economies of Scale

The Trustees considered the extent to which the Portfolio may benefit from economies of scale. The Trustees considered that there may not be a direct relationship between economies of scale realized by the Portfolio and those realized by the Adviser as assets increase. The Trustees considered the extent to which the Portfolio was priced to scale and whether it would be appropriate to add advisory fee breakpoints, but noted that the Portfolio has implemented fee waivers and contractual expense limitations ("Fee Caps") which allow the Portfolio's shareholders to share potential economies of scale from its inception and that the fees remain satisfactory relative to peer funds. The Trustees considered the benefits to the Portfolio of the use of an affiliated distributor and custodian, including the ability to rely on existing infrastructure supporting distribution, custodial and transfer agent services, and the ability to negotiate competitive fees for the Portfolio. The Trustees further considered the Adviser's and JPMS's ongoing investments in their business in support of the Portfolio, including the Adviser's and/or JPMS's investments in trading systems, technology (including improvements to the J.P. Morgan Funds' website, and cybersecurity improvements), retention of key talent, and regulatory support enhancements. The Trustees concluded that the current fee structure for the Portfolio, including Fee Caps that the Adviser has in place that serve to limit the overall net expense ratios of the Portfolio at competitive levels, was reasonable. The Trustees concluded that the Portfolio's shareholders received the benefits of potential economies of scale through the Fee Caps and the Adviser's reinvestment in its operations to serve the Portfolio and its shareholders. The Trustees noted that the Adviser's reinvestment ensures sufficient resources in terms of personnel and infrastructure to support the Portfolio.

Independent Written Evaluation of the Portfolio's Chief Compliance Officer

The Trustees noted that, upon their direction, the Chief Compliance Officer for the Portfolio had prepared an independent written evaluation in order to assist the Trustees in determining the reasonableness of the proposed management fees. The Trustees considered the written evaluation in determining whether to continue the Advisory Agreement.

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited) (continued)

Fees Relative to Adviser's Other Clients

The Trustees received and considered information about the nature and extent of investment advisory services and fee rates offered to other clients of the Adviser, including institutional separate accounts, collective investment trusts, ETFs and/or funds sub-advised by the Adviser, for investment management styles substantially similar to that of the Portfolio. The Trustees considered the complexity of investment management for registered mutual funds relative to the Adviser's other clients and noted differences, as applicable, in the regulatory, legal and other risks and responsibilities of providing services to the different clients. The Trustees considered that serving as an adviser to a registered mutual fund involves greater responsibilities and risks than acting as a sub-adviser and observed that sub-advisory fees may be lower than those charged by the Adviser to the Portfolio. The Trustees also noted that the adviser, not the mutual fund, pays the sub-advisory fee and that many responsibilities related to the advisory function are retained by the primary adviser. The Trustees concluded that the fee rates charged to the Portfolio in comparison to those charged to the Adviser's other clients were reasonable.

Investment Performance

The Trustees received and considered absolute and/or relative performance information for the Portfolio in a report prepared by Broadridge. The Trustees considered the total return performance information, which included the ranking of the Portfolio within a performance universe made up of funds with the same Broadridge investment classification and objective (the "Universe"), as well as a subset of funds within the Universe (the "Peer Group"), by total return for the applicable one-, three- and five-year periods. The Trustees reviewed a description of Broadridge's methodology for selecting mutual funds in the Portfolio's Universe and Peer Group and noted that Universe and Peer Group rankings were not calculated if the number of funds in the Universe and/or Peer Group did not meet a predetermined minimum. The Broadridge materials provided to the Trustees highlighted information with respect to a representative class to assist the Trustees in their review. As part of this review, the Trustees also reviewed the Portfolio's performance against its benchmark and considered the performance information provided for the Portfolio at regular Board meetings by the Adviser. The Trustees also engaged with the Adviser to consider what steps might be taken to improve performance, as applicable. The Broadridge performance data

noted by the Trustees as part of their review and the determinations made by the Trustees with respect to the Portfolio's performance are summarized below:

The Trustees noted that the Portfolio's performance for Class 1 shares was in the fourth, fourth and second quintiles, based upon the Peer Group, and in the fourth, fourth and third quintiles, based upon the Universe, for the one-, three- and five-year periods ended December 31, 2019, respectively. The Trustees discussed the performance and investment strategy of the Portfolio with the Adviser and based upon this discussion and various other factors, concluded that the Portfolio's performance was satisfactory under the circumstances.

Advisory Fees and Expense Ratios

The Trustees considered the contractual advisory fee rate and administration fee rate paid by the Portfolio to the Adviser and compared the combined rate to the information prepared by Broadridge concerning management fee rates paid by other funds in the same Broadridge category as the Portfolio. The Trustees recognized that Broadridge reported the Portfolio's management fee rate as the combined contractual advisory fee and administration fee rates. The Trustees also reviewed information about other expenses and the expense ratios for the Portfolio and noted that Universe and Peer Group rankings were not calculated if the number of funds in the Universe and/or Peer Groups did not meet a predetermined minimum. The Trustees considered the Fee Caps currently in place for the Portfolio, the net advisory fee rate after taking into account any waivers and/or reimbursements and, where deemed appropriate by the Trustees, additional waivers and/or reimbursements. The Trustees recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds. The Trustees' determinations as a result of the review of the Portfolio's advisory fees and expense ratios are summarized below:

The Trustees noted that the Portfolio's net advisory fee and actual total expenses for Class 1 shares were both in the second quintile based upon the Peer Group and were both in the third quintile based upon the Universe. After considering the factors identified above, in light of this information, the Trustees concluded that the advisory fee was satisfactory in light of the services provided to the Portfolio.

TAX LETTER

(Unaudited)

Dividends Received Deduction (DRD)

The Portfolio had 100.00%, or maximum allowable percentage, of ordinary income distributions eligible for the dividends received deduction for corporate shareholders for the fiscal year ended December 31, 2020.

J.P. Morgan Funds are distributed by JPMorgan Distribution Services, Inc., which is an affiliate of JPMorgan Chase & Co. Affiliates of JPMorgan Chase & Co. receive fees for providing various services to the funds.

Contact JPMorgan Distribution Services, Inc. at 1-800-480-4111 for a portfolio prospectus. You can also visit us at www.jpmorganfunds.com. Investors should carefully consider the investment objectives and risk as well as charges and expenses of the mutual fund before investing. The prospectus contains this and other information about the mutual fund. Read the prospectus carefully before investing.

The Portfolio files a complete schedule of its portfolio holdings for the first and third quarters of its fiscal year with the SEC as an exhibit to its report on Form N-PORT. The Portfolio's Form N-PORT reports are available on the SEC's website at <http://www.sec.gov>. The Portfolio's quarterly holdings can be found by visiting the J.P. Morgan Funds' website at www.jpmorganfunds.com.

A description of the Portfolio's policies and procedures with respect to the disclosure of the Portfolio's holdings is available in the prospectuses and Statement of Additional Information.

A copy of proxy policies and procedures is available without charge upon request by calling 1-800-480-4111 and on the Portfolio's website at www.jpmorganfunds.com. A description of such policies and procedures is on the SEC's website at www.sec.gov. The Trustees have delegated the authority to vote proxies for securities owned by the Portfolio to the Adviser. A copy of the Portfolio's voting record for the most recent 12-month period ended June 30 is available on the SEC's website at www.sec.gov or at the Portfolio's website at www.jpmorganfunds.com no later than August 31 of each year. The Portfolio's proxy voting record will include, among other things, a brief description of the matter voted on for each portfolio security, and will state how each vote was cast, for example, for or against the proposal.
